ABOUT ME

Backend software engineer and MSc Data Science student at TU Dortmund University. I have 4+ years of professional experience building production backend systems: REST and GraphQL APIs, third-party integrations, databases and automation. Most recently I built the supplier integration layer of a travel platform (Amadeus, Duffel, Hotelbeds), with idempotent booking flows, retries, failover and reconciliation jobs.

I also work with applied AI – NLP chatbots, retrieval-augmented generation (RAG) and on-device inference on NVIDIA Jetson – and hold a BSc in Informatics Engineering with honours (85.23%, German grade 2.1). Main stack: Python, C#/.NET, TypeScript/Node.js, Go, PHP, PostgreSQL, Docker, AWS.

Open to software engineering roles, including working-student positions alongside my studies. Based in Germany; no visa sponsorship needed.

EDUCATION AND TRAINING

MASTER OF SCIENCE (M.SC.) IN DATA SCIENCE – TU Dortmund University – 10/2026 – Current – Dortmund, Germany

BACHELOR'S DEGREE IN INFORMATICS ENGINEERING – Tishreen University, Latakia, Syria – 10/2016 – 11/2021
Field of study: Software and applications development and analysis · Final grade: 85.23% (German grade 2.1) · tishreen.edu.sy/en

LANGUAGE SKILLS

Mother tongue: Arabic

	Listening	Reading	Spoken production	Spoken interaction	Writing

WORK EXPERIENCE

SOFTWARE ENGINEER – ROAMIFY TECHNOLOGIES INC – 11/2025 – 10/2026 – Remote, Canada · getroamify.com

- Developed a scalable travel-services platform integrating hotels, flights, and eSIM solutions using modern backend frameworks and cloud-native architectures.
- Built and optimized core service APIs, ensuring high availability, secure data handling, and seamless third-party integrations.
- Collaborated across product and engineering teams to deliver a reliable, user-centric travel experience.
- Improved system performance and deployment workflows, contributing to faster feature delivery and enhanced platform stability.

SOFTWARE ENGINEER – COGENTSOFTECH – 02/2022 – 10/2025 – United States · cogentsoftech.com

- Designed and implemented a **product recommendation system**, leveraging data-driven algorithms to personalize customer experiences and improve decision-making efficiency.
- Developed a **complete ERP solution**, integrating finance, inventory, HR, and supply chain modules.
- Built and deployed a full-featured **Point-of-Sale (POS) system**, unifying backend processes for inventory and sales management across distributed retail networks.
- Developed an **AI-powered assistant for offline POS systems**, enabling intelligent search, faster product lookup, and improved user support in low-connectivity retail environments.
- Conceived and launched **Ordro**, a scalable B2B eCommerce platform based on **multitenant architecture**.
- Architected secure **RESTful APIs** and adopted **microservices architecture**, enabling independent scaling, fault tolerance, and faster iteration across multiple platforms.
- Applied computer vision with **OpenCV** and **SIFT** for image comparison, object difference detection, and feature matching.
- Applied **algorithmic optimization** to the Vehicle Routing Problem (VRP), achieving a 15% reduction in delivery costs.

SOFTWARE ENGINEER – NUMBERS5 – 01/2025 – 08/2025 – Contract, United States

- **AI chatbots for CRM:** developed and implemented intelligent chatbots to improve customer relationship management systems.

SKILLS

Languages: Python, C#, TypeScript / JavaScript, Go, PHP, SQL
Backend: .NET, Node.js, NestJS, FastAPI, Laravel, REST & GraphQL APIs, microservices
Databases: PostgreSQL, MySQL, MongoDB, Redis
DevOps & tools: Docker, Git, CI/CD, Linux, AWS
Integrations: Stripe, Worldpay, Hotelbeds, TBO, Amadeus, Duffel, DHL
AI: NLP chatbots, RAG, NVIDIA Jetson edge AI, OpenCV · AI coding tools (Claude, Codex)
Other: System analysis, critical analysis and problem solving

CERTIFICATIONS

ACADEMIC EXCELLENCE AWARD – THIRD YEAR – Tishreen University, Latakia, Syria – 30/11/2020
Awarded for achieving a cumulative score of 89.5% during the third year of the Informatics Engineering program.
